THE LOG FROM THE SEA OF CORTEZ

By John Steinbeck

In 1940, Steinbeck and his biologist friend Edward F. Ricketts ventured aboard the *Western Flyer*, a sailboat boat out of Monterey, California on a 4,000-mile voyage around the Baja peninsula into the Sea of Cortez. This exciting, day-by-day account of their expedition wonderfully combines science, philosophy and high-spirited adventure and provides a much more complete picture of Steinbeck and his beliefs about man and the world - than any of his fictional works. This edition includes a critical introduction that places "the Log" within the context of Steinbeck's life and work, as well as Steinbeck's delightful profile "About Ed Ricketts."
